

Making high-performing online advertising accessible to SMEs

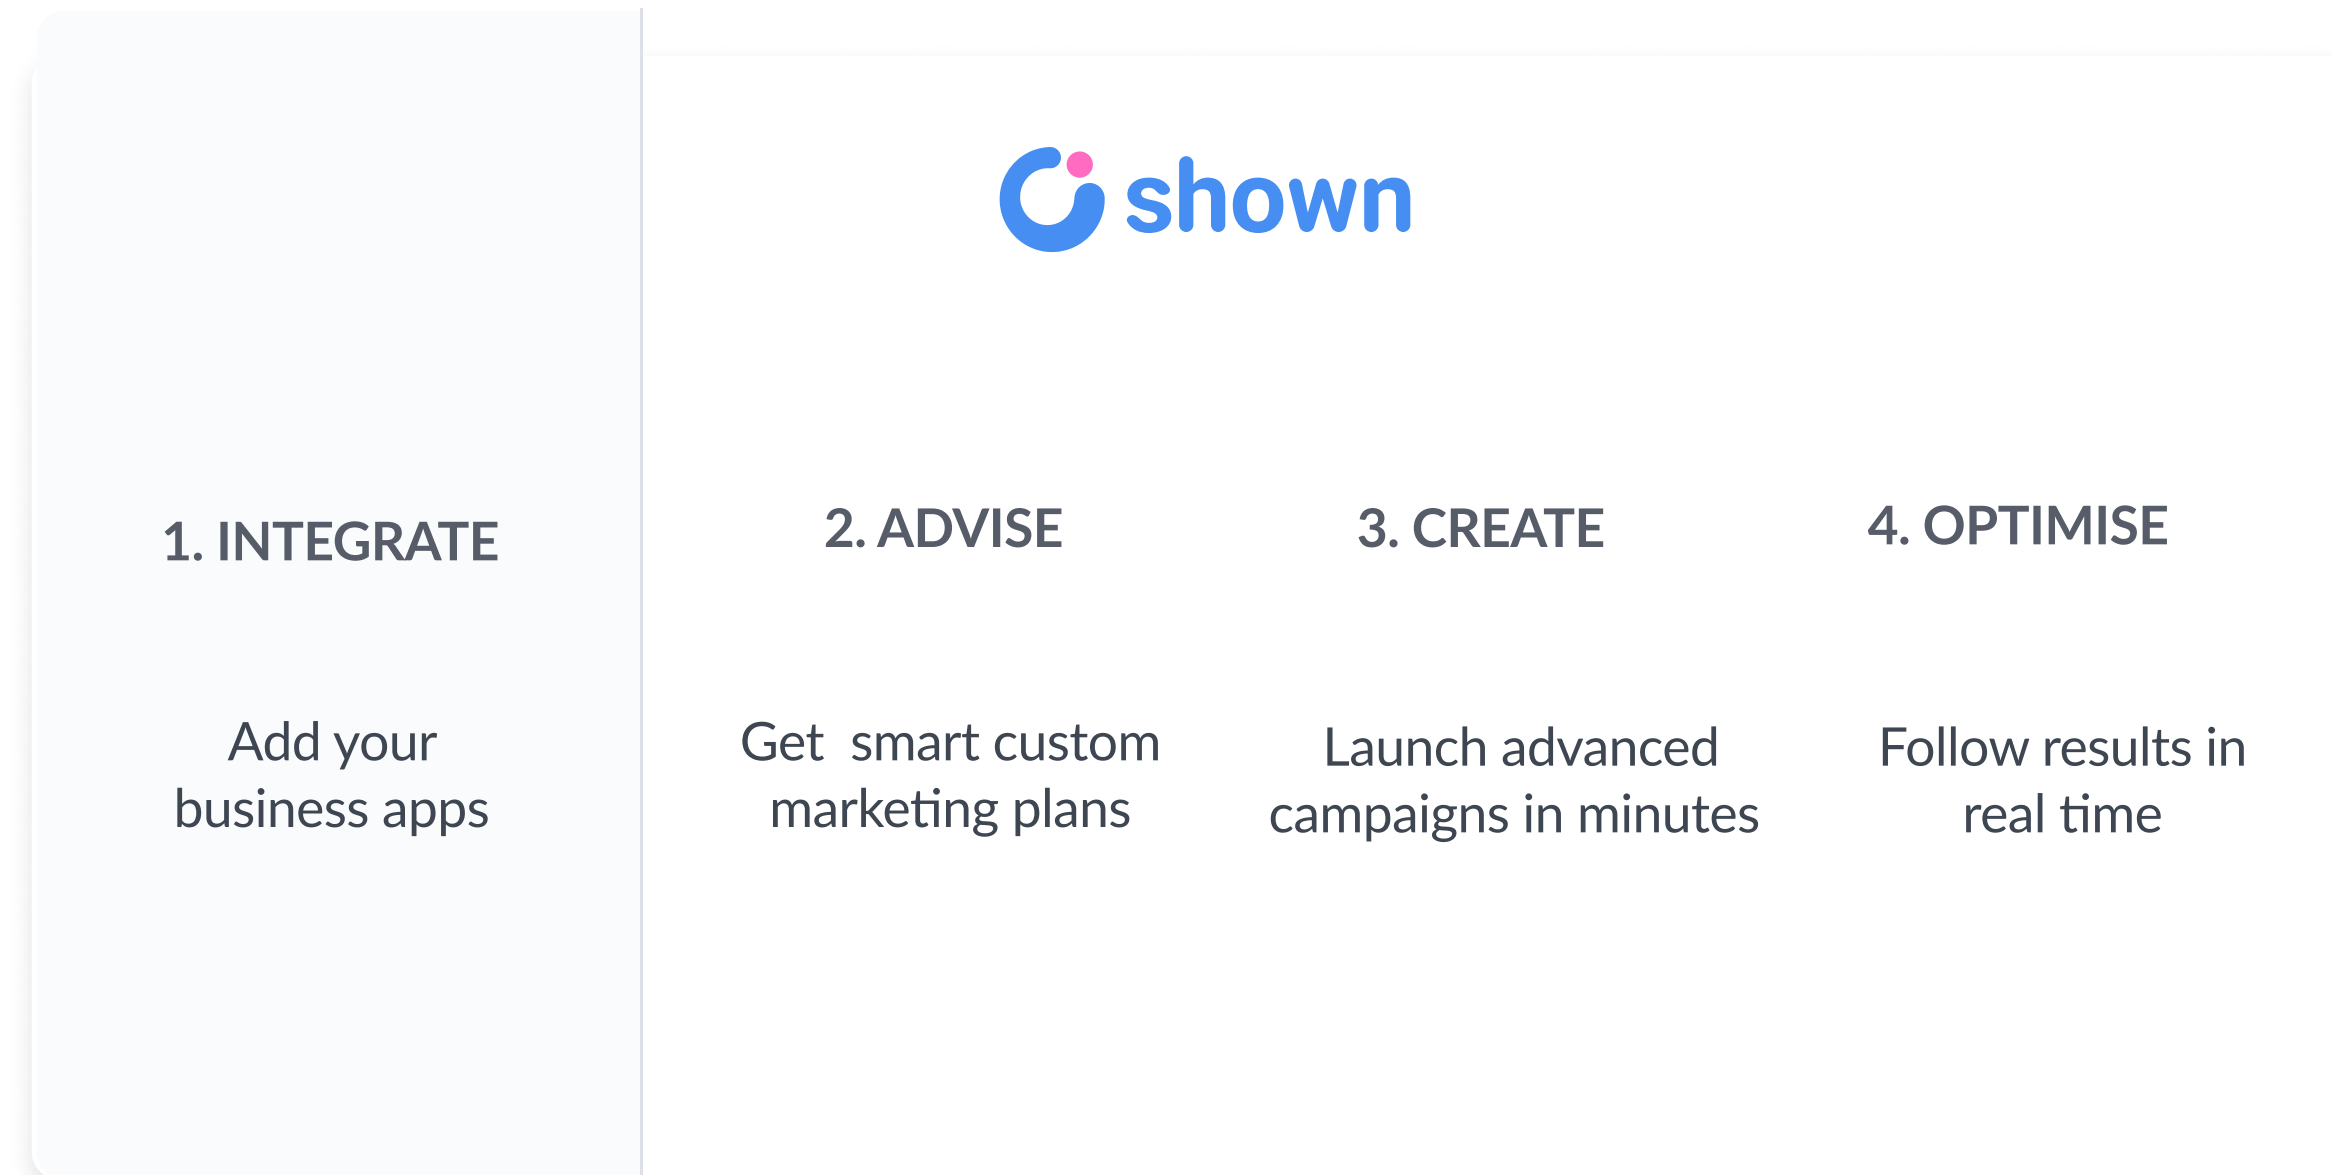

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 779790

# Shown takes the complexity out of digital marketing

On the basis of a strong understanding of the client's business, our AI automatically generates and manages quality marketing campaigns.

**600.000+**

Signups

**6.500+**

Monthly active users

**1.500+**

Paid clients

**145+**

Countries

**260.000€**

Monthly Revenue

**400%**

YoY growth

Customer success team

## Challenge: keyword clustering to improve search ads campaigns results.

Solution: **AI-based** keyword clustering accessible via **interface** or API, where **partners** can upload CSVs of keywords & launch optimised search campaigns with the right keywords **clusters (adgroups)**.

Key expected benefits for our partner (JOT-im):

- Better ad experience for their clients.
- 10% increase in campaign performances thanks to improved campaign structure for smart bidding.
- Be less dependent to Google's future changes.

## Double impact for Shown with REACH project

A perfect program fit resulting in a double impact on Shown technology and target audience.

### Better Product

Improve service offered to larger SMEs.

### Better Retention Rate

Our objective is to **increase the retention rate by 15%**, by improving our technology

### New Market

Open our platform to partner agencies

### New Revenue Stream

We want to achieve **100k€ partnership revenues** by the end of 2022

New business model & existing traction.

Business model

Small & medium enterprises

- SaaS freemium model
- % of advertising spend

Agencies & enterprises

- Value-based pricing for API access

Traction

6500 monthly active users  
> 1500 on paid plans  
250k monthly revenue

+500 partnership demands

### Example: value-based pricing for API access

	Custom plan	API Plus	API Basic
Number of keyword categorization per day	Unlimited	50.000	15.000
Number of keyword suggestions per day	Unlimited	50.000	15.000
Number of ads generated per day	Unlimited	1.000	200
Price	Price on request	1500€/month	899€/month

- Total advertising is expected to reach 982B \$ by 2025. The growth will be fueled by SMEs.
- Our serviceable market are SMEs with monthly advertising budget lower than 10.000€

## Opening new opportunities...

- With REACH project, we can start addressing the agency market which represents a 50B\$ opportunity\*.
