# REACH

# PRESS RELEASE

## REACH Incubator welcomes the last batch of Big Data startups to join the programme!

REACH is an incubator, funded by the European Commission, supporting data-driven startups and SMEs through an 11-month programme, facilitating development of trusted solutions based on industrial and personal data. Our innovation-focused ecosystem, services and tools facilitate cross-sector and multi-stakeholder experimentation and data innovation.

The Incubator held its **last incubation Kick off meeting on 3 April 2023**, during which the **40 startups** to join the third and final iteration of the programme had the opportunity to present themselves and their experiments.

REACH Incubator welcomes startups from a diverse range of industries and countries. The selected startups are based in **Spain**, **Portugal**, **Italy**, **Germany**, **Greece**, **Serbia**, **the UK**, **Ireland**, **Turkey**, **Belgium**, **Bulgaria**, **Estonia**, **France**, **Luxembourg**, **the Netherlands**, **Romania**, **Sweden**, and **Slovenia**.

The startups, which have joined the REACH programme are currently working on developing their ideas. On 30 and 31 May, they will travel to Paris for the Datathon, where they will have the opportunity to present their technical and business pitches.

The full list of SMEs can be found here.

This is a great opportunity for investors to get acquainted with the final round of REACH startups! REACH out to us via info@reach-incubator.eu if you would like to meet any of them.
